**CAN FINANCIAL INCENTIVES TO FIRMS IMPROVE APPRENTICE  
TRAINING? EXPERIMENTAL EVIDENCE FROM GHANA**

**Gabriel Brown, Morgan Hardy, Isaac Mbiti, Jamie McCasland, and Isabelle  
Salcher**

To whom it may concern:

This research received funding support from USAID-DIV, PEDL, IGC, J-PAL, 3ie, and the Center for Innovative Data in Economics Research (CIDER) at the University of British Columbia Vancouver School of Economics.

The fieldwork for this research was conducted under IRB approval from Innovations for Poverty Action (563.12August-004), Southern Methodist University (2012-060-MBII), the University of Virginia (2015-0007-00), and the University of British Columbia (H15-02708). The University of California, Berkeley had an Inter-Institutional Agreement with Southern Methodist University during a portion of the data collection.

I have no other relevant or material financial interests that relate to the research described in this paper.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jamie McCasland', written in a cursive style.

Jamie McCasland  
Assistant Professor of Economics  
University of British Columbia
