Main Economic Indicators

Historical Statistics 1960-1996—on CD ROM

The essential source of short-term statistics for OECD Member countries. It provides a complete and timely picture changes in the economies of the OECD countries and puts them in an international context. The indicators selected cover national accounts; industrial production; business surveys; money and domestic finance; deliveries, stocks and orders; construction; domestic trade; labor; wages; prices; foreign finance; interest rates; trade; and balance of payments.

International Trade by Commodities—on CD-ROM

New lower pricing.

- SITC Rev 2, 1988-1995, provides value of trade of all OECD countries with all partner countries.
- SITC Rev 3, 1988-1995, provides value of trade of all OECD countries with all partner countries.
- Harmonised System 1988-1995, provides the most detailed data available, and includes both value and quantity data. It provides the trade data of all OECD countries with all partner countries using the most detailed classification scheme, the Harmonized System, for which we have not offered data before.
- SITC Rev 2 Historical Statistics 1961-1987. This set of CDs will provide trade value data for all OECD countries with all partners for the period 1961-1987.

National Accounts of OECD Countries—on diskette

Volume I (about 3100 series) contains the main annual national accounts aggregates included in the book National Accounts Volume I: Main Aggregates. These aggregates, in national currencies, cover expenditure on the GDP, cost components of the GDP, and finance of gross capital formation. It also includes comparable statistics based on exchange rates (US dollar) and purchasing power parities. The data are available from 1960 onward. Aggregations for OECD Total, OECD Europe, and EU, all in dollars, are also provided.

Main Industrial Indicators—on diskette

Provides series which highlights trends in industrial structure and performance in selected OECD countries and zones. Drawing on existing databases it is designed to mirror "Main Science and Technology" and includes a set of indicators covering international trade, production, employment, productivity, physical investment, and business enterprise R&D for the period 1980-1995 for 26 manufacturing sectors, several industry groupings, and selected service sectors.
