ALEXANDER MACKAY  
ASSISTANT PROFESSOR

Dear Editors,

I am writing to submit a Disclosure Statement for my manuscript, "Contract Duration and the Costs of Market Transactions," for consideration at the *American Economic Journal: Microeconomics*. I declare that I have no relevant or material financial interests that relate to the research described in this paper.

I did not seek IRB approval for this project as it is based on data collected from public records and thus falls outside of the scope of what constitutes human subject research.

Sincerely,

Alexander MacKay
