

“Fiscal Centralization: Theory and Evidence from the Great Depression”

Author: **Daniele Coen-Pirani (University of Pittsburgh)**

Disclosure statement (5/15/2017)

The paper “Fiscal Centralization: Theory and Evidence from the Great Depression” did not benefit from any financial support from external grants. I hold no paid or unpaid positions which are of relevance to this work (other than my position as professor at the University of Pittsburgh). I also declare that I have no relevant or material financial interests that relate to the research described in this paper. This project did not require IRB approval. This disclosure also applies to my close relatives.
