July 26, 2018

Disclosure Statement:

I, Grant Miller, have no relevant or material financial interests to declare that relate to the research described in the paper "Urban water disinfection and mortality decline in lower-income countries." The research did not require IRB approval because of the use of de-identified, public use or aggregate secondary data.

Sincerely,

A handwritten signature in black ink, appearing to read "Grant Miller".

Grant Miller
Associate Professor, School of Medicine
Director, Stanford Center for International Development
